PROFESSIONAL SUMMARY

I'm a pharmacist who found my way into healthcare business analysis and project management. My path through clinical research and health informatics showed me how data can truly save lives, and that's the work I do today, leading health data and clinical trial projects with government entities, hospitals, and pharmaceutical companies. I enjoy understanding what each stakeholder really needs, then turning it into a clear plan and seeing it through.

PROFESSIONAL EXPERIENCE

Project Manager Jun 2025 – Present
Lean Business Services · Riyadh, Saudi Arabia

- Led the Population Health Observatory project with the Ministry of Health across 20 regional branches, overseeing data collection, validation, and reporting, delivering the observatory's annual report and regional indicator reports, and unifying the reporting methodology between two analytics teams
- Led business analysis for a new Healthy Cities domain on the national population health platform, working directly with health cities representatives to define its standards and requirements, documenting them in a BRD, and onboarding their teams to use the platform independently
- Designed and delivered a national training program for 86 analysts from every regional branch, raising report-writing proficiency from 68% to 95%, with a 4.74 / 5 rating and 100% of participants recommending it
- Led the evaluation of clinical trial management systems, identifying a critical access-control gap that informed vendor selection, and built a registry of investigators and research sites in Saudi Arabia

Clinical Monitoring Associate I Dec 2024 – Jun 2025
CTI Clinical Trial & Consulting Services · Riyadh, Saudi Arabia

- Conducted on-site and remote monitoring visits at King Faisal Specialist Hospital & Research Centre and international sites, verifying protocol adherence and ICH-GCP compliance
- Managed TMF and eTMF reconciliation to keep sites audit-ready, and reported protocol deviations to the sponsor
- Served as the main point of contact for site staff and sponsors, and delivered protocol training to site teams

Clinical Research Coordinator Nov 2023 – Dec 2024
IQVIA Solutions · Riyadh, Saudi Arabia

- Coordinated multi-site clinical trials in oncology, nephrology, and cardiology at King Faisal Specialist Hospital & Research Centre, King Fahad Medical City, and King Khalid University Hospital
- Screened and enrolled participants, obtained informed consent, and reported adverse events in line with safety procedures
- Managed study data in Medidata Rave and Trial Master File documentation across all sites
- Served as the main point of coordination between investigators, site staff, and sponsors to keep studies on protocol and on schedule

Clinical Research Coordinator Sep 2022 – Nov 2023
King Abdullah International Medical Research Center (KAIMRC) · Riyadh, Saudi Arabia

- Managed concurrent studies in pediatric infectious disease and nutrition, including Phase III, Phase IV, and pharmacokinetic protocols
- Supported study submissions and feasibility assessments, and managed data collection and validation in Medidata Rave
- Coordinated between research teams, clinical sites, and sponsors to keep studies on protocol and on schedule

Qualified Person for Pharmacovigilance (QPPV) Aug 2021 – Jan 2022
Phoenix Clinical Research

- Oversaw drug safety activities in line with SFDA requirements, assessing and reporting adverse event cases within regulatory timelines
- Maintained pharmacovigilance documentation and supported periodic safety reports

Medical Representative Apr 2020 – Mar 2021

AstraZeneca · Riyadh, Saudi Arabia

- Represented AstraZeneca's Cardiovascular, Renal & Metabolism portfolio to physicians and pharmacists, building trusted relationships across assigned territories
- Maintained engagement with healthcare professionals through remote channels during COVID-19

EDUCATION

Bachelor of Science, Health Informatics 2025

Saudi Electronic University · Riyadh, Saudi Arabia

Bachelor of Pharmacy (Pharm.D.) 2019

Princess Nourah Bint Abdulrahman University · Riyadh, Saudi Arabia | GPA: 4.46 / 5.00, with honors

Publication: Almukainzi M., Almuhareb A., Aldwisan F., Alquaydhib W. 'Medication use patterns in the visually impaired in Saudi Arabia and the importance of applying Braille labeling.' Saudi Pharmaceutical Journal, Vol. 28(3), Mar 2020, pp. 274–280.
